

ANKUSH GUPTA

FULL STACK DEVELOPER

Pune, India | +91-7028111062 | ankushgupta4747@gmail.com | portfolio-ankushh-g.vercel.app | linkedin.com/in/ankush-gupta07 | github.com/Ankush-0g

SUMMARY

BCA graduate specializing in full-stack development with comprehensive hands-on experience building robust web applications. Proficient in Java, Spring Boot, React, and Node.js, with a strong emphasis on architecture, secure RESTful APIs, and database optimization (SQL & NoSQL). Passionate about backend engineering, system scalability, and creating seamless user experiences.

TECHNICAL SKILLS

LANGUAGES:	Java, Python, JavaScript, SQL
BACKEND DEV:	Spring Boot, Node.js, JDBC, REST APIs, JWT Authentication, WebSockets
FRONTEND DEV:	React.js, Tailwind CSS, HTML5, Framer Motion
DATABASES:	PostgreSQL, MySQL, MongoDB
TOOLS & ECOSYSTEM:	Git, GitHub, VS Code, Android Studio, Firebase, Cloudinary

FEATURED PROJECTS

DEKHLE | Full-Stack OTT Streaming Platform Pune, India

Tech Stack: Java, Spring Boot, React.js, Tailwind CSS, MongoDB, REST API, JWT, Framer Motion, Cloudinary

- Architected a full-featured, responsive OTT platform inspired by Netflix, featuring a cinematic user interface.
- Engineered secure user authentication and stateless session management leveraging Spring Boot and JWT.
- Integrated Cloudinary cloud storage for seamless media asset delivery and management.

PHARMACY MANAGEMENT SYSTEM (PHARMAFLOW) Pune, India

Tech Stack: React 18, Node.js, Tailwind CSS, Recharts, Lucide Icons, PostgreSQL

- Designed and deployed a full-stack enterprise solution for real-time inventory tracking and point-of-sale (POS) billing.
- Implemented automated financial modules including GST invoice generation and dynamic charts using Recharts.
- Secured sensitive workflows with role-based JWT authentication and built a fully responsive monitoring dashboard.

COLLEGE ERP SYSTEM Pune, India

Tech Stack: Java, Spring Boot, React.js, Tailwind CSS, PostgreSQL, Firebase, REST API

- Developed a centralized academic ERP system managing complex data structures for students, faculty, and departments.
- Integrated Firebase services to handle secure authentication and cloud storage functionalities.
- Designed highly scalable RESTful endpoints for real-time attendance tracking and academic records management.

EDUCATION

BACHELOR OF COMPUTER APPLICATIONS (BCA)

Graduated

H.V. Desai College, Pune (Savitribai Phule Pune University) | **CGPA: 8.0/10**

Relevant Coursework: Data Structures & Algorithms (DSA), DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

- **Infosys Certified Spring Boot Specialist:** Spring 5 Basics with Spring Boot
- **Infosys Certified Advanced Java Developer:** J2EE Servlets, JDBC, Multithreading
- **Infosys Certified DBMS Specialist:** SQL, Database Normalization, Indexing
- **Infosys Certified Python Programmer:** Object-Oriented Programming, Core Libraries

ADDITIONAL INFORMATION

- **AREAS OF INTEREST:** Backend Engineering, Distributed Systems, API Architecture, Mobile App Development
- **SOFT SKILLS:** Strong analytical problem-solving, collaborative team communication, adaptive learning agility
