

# ANKUSH GUPTA

## FULL STACK DEVELOPER

**Location:** Pune, India    **Phone:** +91-7028111062    **Email:** ankushgupta4747@gmail.com    **LinkedIn:** linkedin.com/in/ankush-gupta07  
**GitHub:** github.com/Ankush-0g

## SUMMARY

BCA graduate specializing in full-stack development with comprehensive hands-on experience building robust web applications. Proficient in Java, Spring Boot, React, and Node.js, with a strong emphasis on architecture, secure REST database optimization (SQL & NoSQL). Passionate about backend engineering, system scalability, and creating seamless experiences.

## SKILLS

|                       |                                                                       |
|-----------------------|-----------------------------------------------------------------------|
| LANGUAGES:            | Java, Python, JavaScript, SQL                                         |
| BACKEND DEVELOPMENT:  | Spring Boot, Node.js, JDBC, REST APIs, JWT Authentication, WebSockets |
| FRONTEND DEVELOPMENT: | React.js, Tailwind CSS, HTML5, Framer Motion                          |
| DATABASES:            | PostgreSQL, MySQL, MongoDB                                            |
| TOOLS & ECOSYSTEM:    | Git, GitHub, VS Code, Android Studio, Firebase, Cloudinary            |

## FEATURED PROJECTS

### DEKHLE | Full-Stack OTT Streaming Platform

Tech Stack: Java, Spring Boot, React.js, Tailwind CSS, MongoDB, REST API, JWT, Framer Motion, Cloudinary  
Architected a full-featured, responsive OTT platform inspired by Netflix, featuring a cinematic user interface. Engineered secure user authentication and stateless session management leveraging Spring Boot and JWT. Integrated Cloudinary cloud storage for seamless media asset delivery and management.

### PHARMACY MANAGEMENT SYSTEM (PHARMAFLOW)

Tech Stack: React 18, Node.js, Tailwind CSS, Recharts, Lucide Icons, PostgreSQL  
Designed and deployed a full-stack enterprise solution for real-time inventory tracking and point-of-sale (POS) billing. Implemented automated financial modules including GST invoice generation and dynamic charts using Recharts. Secured sensitive workflows with role-based JWT authentication and built a fully responsive monitoring dashboard.

### COLLEGE ERP SYSTEM

Tech Stack: Java, Spring Boot, React.js, Tailwind CSS, PostgreSQL, Firebase, REST API  
Developed a centralized academic ERP system managing complex data structures for students, faculty, and departments. Integrated Firebase services to handle secure authentication and cloud storage functionalities. Designed highly scalable RESTful endpoints for real-time attendance tracking and academic records management.

## OTHER PROJECTS

### VIRTUAL ASSISTANT COMPILER | Android Application

Tech Stack: Java, XML, Android SDK, Judge0 CE API  
Built a mobile code compiler featuring a custom-built, syntax-highlighted editor. Integrated Judge0 CE API to execute and debug code directly on mobile devices across multiple languages.

### QUEUE MANAGEMENT SYSTEM

Tech Stack: Python, JavaScript, MongoDB, WebSockets  
Spearheaded a real-time token generation and queue tracking system using WebSockets for instant, bi-directional client and dashboard synchronizations.

### RESTAURANT MANAGEMENT SYSTEM

Tech Stack: Java, Java Swing, PostgreSQL, JDBC  
Created a desktop-based administration utility featuring full menu management, order processing, and transactional security using

## EDUCATION

### BACHELOR OF COMPUTER APPLICATIONS (BCA)

H.V. Desai College, Pune (Savitribai Phule Pune University)  
CGPA: 8.0/10 • Relevant Coursework: Data Structures & Algorithms (DSA), DBMS, Operating Systems, Computer Networks

## CERTIFICATIONS

---

Infosys Certified Advanced Java Developer : J2EE , Servlets , JDBC , Multithreading

Infosys Certified DBMS Specialist : SQL , Database Normalization , Indexing

Infosys Certified Python Programmer : Object-Oriented Programming , Core Libraries

## ADDITIONAL INFORMATION

---

AREAS OF INTEREST: Backend Engineering , Distributed Systems , API Architecture , Mobile App Development

SOFT SKILLS: Strong analytical problem-solving , collaborative team communication , and adaptive learning agility.
